EXCHANGE ACCESS SERVICE

5.1 General

5.5.1 Exchange Access Service provides a Customer with a telephonic connection to, and a unique telephone number address on the public switched telecommunications network. Each Exchange Access Service enables users to:

- (A) receive calls from other stations on the public switched telecommunications network;
- (B) access other services offered by the Company as set forth in this tariff;
- (C) access certain interstate and international calling services provided by the Company;
- (D) access (at no additional charge) the Company's operators and business office for service related assistance;
- (E) access (at no additional charge) emergency services by dialing 0- or 9-1-1; and
- (F) access services provided by other common carriers that purchase the Company's Switched Access services as provided under the Company's Federal and State tariffs, or that maintain other types of traffic exchange arrangements with the Company.

Each Exchange Access Service is available on a "Full" service basis, whereby service is delivered to a demarcation/connection block at the Customer's premises.

The following Exchange Access Services are offered:

Basic Line Service⁽¹⁾

(1) Basic Line Service is only available to customers in conjunction with a qualifying Tier 2 service, as found in the Detariff Catalog guide, and is not available on a stand-alone basis. Service to basic line customers with four or more access lines will receive tier 2 treatment for all access lines in accordance with rule 4901:1-6-05 of the Administrative Code.
