PUBLIC UTILITIES COMMISSION OF GA

Dear Sir

PUCO

9/22/08

I am writing in response to the proposed utility customer charge increase. I now "live" on a small disability income. I have been conserving natural gas usage in my household as much as I can. We use very little "hot" water and keep our thermostat under 68' most of the winter. With these few cut backs we try desperately to keep make ends almost meet.

Now you come along with the new straight-fixed variable rate. This will cause an undue heavy responsibility on those of us who are retired & disabled. Those who can afford the luxury homes will be subsidized by those who live in smaller homes. Is this fair?! No. They by all means should be subsidizing us! Please, please rethink this plan and make it more fair to

the people who can least afford  
the new changes. I'd like to see  
you try to live in our situation  
and see where you can go or how  
far you can stretch your money into  
taxes, food, gas, medicines, all bills  
utilities. It doesn't go far at all.

I thank you for taking time to  
read my letter. Hope you can  
come up with a better, more fair  
plan.

Sincerely  
Norra Bartczak  
20604 Raymond Ave  
Naperville, Ohio 44,  
216-663-9724.
