AEP rate increase case - 08-918-EL-SSO
PUCO

To Whom It May Concern:

I would like to voice my objection to such high rate increases over the next three years. With the economy in such terrible shape and more & more people losing their jobs how do you expect these high bills to be paid?

I suggest you take a look at how you purchasing your supplies for everything from copy paper to the transformers. Perhaps there are smaller companies that will make better contracts at lower costs and give a better product to be used.
