Dear Sirs:

We have heard that our electric company - American Electric Power, is asking for a 45% increase over 3 years.

My husband is retired, and we are on a fixed pension. We pay our own health insurance which is \$82⁰⁰ monthly. Gasoline is almost \$4⁰⁰ a gallon. How can we afford this?

Even a 5% increase wouldn't be as bad, but 45% !!

Please don't do this! Ourselves, and everyone who isn't a millionaire will suffer.
