COMMENT DESCRIPTION:

This comment is concerning the rate increase that First Energy is requesting. Many of us middle class are struggling to pay our bills, put food on the table and a roof over our heads. First Energy has made millions in profits over the past several years. They can afford to cut back, I can not. Please think about the person or persons who are on a fix income and can not afford to pay higher rates. We pay some of the highest rates in the nation, Why?? Please say no rate increase. I can not afford it.

Thank you

Cathy Shearer First Energy customer
