Caller was unable to attend the Monday meeting @ Whetstone but would like to add her comments to the case:

I greatly disagree w/ the proposed increase. They have made considerable profits over the past few years already. Their cost have not increased enough to correspond with a hike of this magnitude. Ohioans are losing jobs everyday. We simply can't afford this type of increase. Customers power goes out quite often and I am starting to keep track of that. I don't believe they are putting enough into the infrastructure either to justify the increase.

I complained to AEP about their public notice. It only identified themselves as CSP and OP. AEP should be in the ad because people may not recognize it otherwise.

Lastly, AEP reps keep telling her the rate increase is a "done deal" though a decision has not been made.
