Re: Mrs. Lyn Nagel

Docketing Case No.: 08-0935-EL-SSO

Notes:

Dear Sirs:

I entreat you to prevent the unfair increase in utility rates.

In view of First Energy's astonishing profits over the past 5 years, they ought to be easily able to fund any capital improvements or new technology necessary.

That is, of course, that those profits are not going into the pockets of Jim Murray and other executives at First Energy.

In view of: 1) First Energy's excessive, extravagant compensation to executives,

2) the fact that in northwest Ohio, residential and commercial electric rates are consistently among the highest in the state, and the nation,

3) the fact that numbers of the unemployed continue to rise, along with home foreclosures,

4) the rising cost of living, 5) businesses forced to close due to high electric rates

George Sarantou, Toledo City Councilman, has suggested that FirstEnergy ought to consider instead reducing rates considering their huge profits over the last few years. That idea should be given real consideration.
