Untitled

I don't understand why AEP would need to raise our electric rates now with the economy the way it is.

So many people are getting their utilities shut off as it is.

If it keeps going up, we won't be able to pay as we are on a limited income.

Everything is so high priced now as it is.

We save energy every way we can.

Bought all energy saving bulbs, turn off lights when we can. Unplug the extra tv.

Still have a high electric bill.
