**Re: Troy, Miami County, Ohio
Install Active Warning Devices at Union Street
DOT 155 181L; Milepost BE-78.94; OH0666
Case No. 07-1169-RR-FED**

Dear Ms. Dalton:

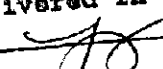

On November 6, 2007, the Public Utilities Commission of Ohio ("PUCO") issued Entry Number 07-1169-RR-FED to install active warning devices at the above crossing at Union Street (the "Work"), with November 20, 2008 as the completion date for construction.

The subject roadway grade crossing configuration was be modified to include raised medians for the installation of warning devices. In order to provide an accurate circuit design, proposed roadway construction plans were required from the City of Troy.

Due to the complexity of the project and the delays caused by the requirement of additional construction plans from the City of Troy, CSXT respectfully requests an extension of the completion date for construction to August 4, 2009.

Very truly yours,

Tammy D. Butler
