COMMENT DESCRIPTION:

With so many foreclosures, the eminate closesures of some major manufactures, job losses in the thousands. Food prices doubling, insurances going up. Why would the PUCO, even consider allowing any of the utility companies, to raise thier rates? Toledo pays the highest in electric, of any major city in the state. The are requesting to raise the rates by as much as 14%. Now the natural gas companies are asking to raise their rates. The Lucas county tax office is also talking about raising thier rates on property taxes. Stop the rate increases. You are helping this companies put people out of thier homes. Tell me, who should we blame, when people start dying, cause they can't pay their heating bills? Are you going to take on the responcebilty for that?
