DESCRIPTION OF BELL ATLANTIC COMMUNICATIONS, INC. AND NYNEX LONG DISTANCE COMPANY REORGANIZATION

Bell Atlantic Communications, Inc., d/b/a Verizon Long Distance Company ("VLD"), and NYNEX Long Distance Company, d/b/a Verizon Enterprise Solutions ("VES") will reorganize with VLD and VES becoming subsidiaries of VZ-NY. Each company is a direct or indirect subsidiary of Verizon Communications Inc. ("Verizon").

VLD is a Delaware corporation that provides long distance and other telecommunications services throughout the United States. The focus of VLD's operations has been the provision of long-distance service to the residence market. VES is a Delaware corporation that provides long-distance services and other telecommunications services throughout the United States. In contrast to VLD's focus on the residence market, VES's operations have centered on the long-distance business market. VZ-NY is a local exchange carrier, which provides a wide range of telecommunications services throughout New York State, and in a portion of Connecticut.

Under the proposed reorganization, VLD and VES would become subsidiaries of VZ-NY. The planned reorganization will have no impact on how these companies provide services to their customers in any state, and will have no material impact on the day-to-day operations of these companies. No changes in the management of these companies are planned as a result of the reorganization. There will be no changes in the terms of the Commission-approved tariffs under which VLD and VES provide service to their respective customers as a result of the reorganization. The planned reorganization will not diminish or affect in any way the extent of the Commission's jurisdiction over the offering of intrastate regulated telecommunications services by VLD and VES. The planned reorganization will in no way diminish the ability of these companies to respond to the needs of existing and prospective customers. The

reorganization will be completely transparent to customers. The reduction in costs that will be realized as a result of the reorganization will likely permit these companies to compete more effectively, thereby benefitting customers of these companies.
