Re: Case No. 08-0918-EL-SSO

Notes: I am commenting on the rate hike proposed by AEP; Before any rate hikes should be approved, AEP should provide data that supports their past rate hikes and the programs and efforts that they were "promised" to support. Until those promises are kept, there should be no further rate hikes. The inability to plan on AEP's part should not create burden for consumers. Also - this rate hike was asked for when costs were high for petroleum products. That issue has been resolved - since the prices have fallen to low levels not seen for many years.
