Notes:

I have received information from a friend about AEP's request for a rate increase that I believe is outrageous and unjustified. I believe that, if approved by the PUCO, the rate increase will cause more companies to reduce employment in order to deal with higher operating costs. I also believe that such a drastic rate increase (53% over 3 years) will seriously hurt all consumers who get electricity from AEP companies. Ohio is in a very deep and dangerous economic slump. The last thing our state needs is for an electric rate increase that could further damage Ohio's economy. Therefore, I strongly urge the PUCO to reject AEP's request.

Sincerely,
Robert Comer Magnolia, Ohio (Carroll county)
