Dear Mr. Farkas:

In response to your recent phone call, I have inspected the referenced crossing. The Norfolk & Southern spur immediately west of the CSX main line was removed through the pavement and the rail was also removed approximately 30' beyond the pavement edges. The excavated pavement area was replaced with asphalt and is in good condition providing a smooth transition to both approaches. I found no evidence of additional work to be performed.

Please contact me at your convenience if you need any additional information regarding this case.

Very Truly Yours,

Steven C. Wilson, PE, PS
Hancock County Engineer
