COMMENT DESCRIPTION:

I am writting to speak out AGAINST AEP's purposed 52% rate increase. In the very tough economic times today, I do not believe that families and businesses will be able to afford a rate increase of 52% to an already high rate. My average monthly electric bill is between 250 to 300 dollars a month. This increase could raise my AVERAGE cost to between 380 and 540 dollars a month. My family is not wealthy by any means and we live on a tight budget. An increase of this size will have serious repercussions families who live paycheck to paycheck and businesses who are struggling to survive in these horrific times. The worst part about this is that we are FORCED to use AEP and have no other alternative for our electricity needs. Please do not allow this company to gouge its customers who have no other choice. Thank You
