INVESTIGATION & COMPLAINT
PUBLIC UTILITIES COMMISSION OF ALABAMA

Dear Sirs:

I'm writing to object to the A&P rate hike. I have a new all electric home. I have all new appliances that is suppose to be energy efficient. I try to save electric because we are on a fixed budget + income. My husband is 85 and I'm 77. We keep the thermostat on 69 during the day and 68 at night. I turn off my water tank over night. I have all those energy saving bulbs. I wash my clothes in cold water and I use my dishwasher about 3 times a year. We wear fleece sweat suits in the house to keep warm.

I didn't turn my outside lights till this week only because my neighbor saw a truck at my house while we were gone. He called the sheriff and kept us from having a robber at our house.

I've done all I can to save electric
and my electric bill was \$160.00
this month. I think how much
it would be with the rate
like you want. How can you ever
think of raising rates when people
are out of work and the economy
is like it is. Even when you
build new electrical things you
want you pass the cost on to
the public. We have no one to
pass our costs onto. I want to
be able to pay my own bills
I hope you see fit not to
raise the rates.

Thank you
Mrs. Adrian Sluder
