G. TELEPHONE RELAY SERVICE (TRS) ASSISTED CALLS

(N)

1. TRS Assisted calls are calls completed through the TRS established by the Public Utilities Commission of Ohio (PUCO). This service permits hearing and/or speech impaired customers who use a Text Telephone (TT) or its equivalent, to communicate with users of ordinary telephones. Communication takes place by relaying conversations (voice to TT and vice versa). These calls are between party(ies) who must communicate by means of a TT and others who communicate by means of an ordinary telephone.
2. A completed TRS assisted call is rated and billed as a call from the originating telephone number (calling station) to the terminating telephone number (called station).
3. Dial station rates less applicable discounts apply to TRS assisted calls except where additional operator assistance or special billing is requested. In those cases, the applicable class of service, e.g., customer dialed calling card station, operator station or person-to-person, rates apply.
4. The Company shall not be liable for errors in translating, transmitting, receiving or delivering messages by telephone, TT, or any other instrument over the facilities of connecting utilities or through the TRS established by the PUCO, except for errors resulting from the gross negligence or willful misconduct on the part of the Company.
