THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Application of Ohio)	
Edison Company, The Cleveland Electric)	
Illuminating Company, and The Toledo)	Case Nos. 09-21-EL-ATA
Edison Company for Approval of Rider)	09-22-EL-AEM
FUEL and Related Accounting Authority.)	09-23-EL-AAM

ENTRY NUNC PRO TUNC

The Commission finds:

- (1) On January 9, 2009, Ohio Edison Company, The Cleveland Electric Illuminating Company, and The Toledo Edison Company (the Companies) filed an application in these cases requesting, *inter alia*, approval of a fuel rider (Rider FUEL).
- (2) On January 14, 2009, the Commission issued a finding and order which, *inter alia*, authorized the Companies to implement Rider FUEL on a temporary basis until March 31, 2009, and authorized them to file, in final form, four complete copies of tariffs consistent with the finding and order in these cases, as well as the orders issued in *In the Matter of the Application of Ohio Edison Company, The Cleveland Electric Illuminating Company, and The Toledo Edison Company for Authority to Establish a Standard Service Offer Pursuant to Section 4928.143, Revised Code, in the Form of an Electric Security Plan*, Case No. 08-935-EL-SSO. The Commission found that, by operation of law, the effective date of the new tariffs shall be January 1, 2009, and the new tariffs shall be effective for services rendered on or after the effective date.
- (3) It has come to the Commission's attention that, in the first sentence in the second paragraph of finding (11) in the January 14, 2009, order, the Commission did not aptly describe our intent as to what may be included in CEI's Rider FUEL. Therefore, the Commission's January 14, 2009, order should be clarified and revised, nunc pro tunc, as follows, to effectively delineate what is to be included in CEI's Rider FUEL:

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.
Technician Date Processed 1-22-09

With regard to CEL, we conclude that Rider FUEL should be established at an amount equal to the difference in the costs incurred by the Companies to purchase power for customers receiving generation service pursuant to the Companies' power supply agreement and the sum of the unbundled generation revenues plus the RTC revenues for CEL's customer classes as set out in the Companies' current rate plan.

- (4) On January 16, 2009, the Companies filed their final tariffs consistent with the intent of the Commission's January 14, 2009, order, as clarified by this entry nunc pro tunc.

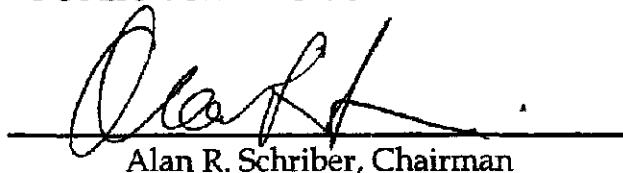

It is, therefore,

ORDERED, That the Commission's January 14, 2009, order be revised, nunc pro tunc, in accordance with finding (3). It is, further,

ORDERED, That nothing in this finding and order shall be binding upon this Commission in any subsequent investigation or proceeding involving the justness or reasonableness of any rate, charge, rule, or regulation. It is, further,

ORDERED, That a copy of this entry be served upon all parties of record.
