COMMENT DESCRIPTION:

This comment is in regard to the proposed rate increase that AEP is wanting to put on their customers. They are proposing a 15% increase for each of the next 3 years. This to me seems to be totally out of the question because of the state of the economy. The ordinary person can not afford an increase like this. We are all scrimping and trying to make ends meet. It seems to me that AEP also needs to look into their own company and make cuts at the higher level.
