Dear Alan Schriver,

I wonder why there is no regulation against Power Companies raising utilities rates whenever they please: SENATE BILL # 221. I've hear that they can VETO anyone who opposes the utility rates.

WHY IS THERE NO GOVERMENT REGULATION AGAINST THIS?

I'm writing in regards to the coming increase of the electric bill. I hear that it could be up to 50%. The workers should not drive the trucks home that alone would save on the gas. Also I see some of the trucks 2 or 3 on the same pole and only 1 person doing the work the others just set in the truck [illegible] passenger mentality.

Dear Mr. Schaefer

This is concerning House Bill 221.

I want to know how the PUCO can automatically raise our power bill because some big way thinks he can do it?

We are senior citizens living on our Social security. We just got a small raise and with everything else going up, we are fighting a losing battle.

There is no way they can impose a flat rate. We watch our power usage. Now they are telling us that someone who lives in a Mansion house is going to pay the same as we living in a Mobile home. Someone has to get real here!!!

There Got the Ron Powden show on WBBC brought this to

our attention!

Someone has to stand up for the working man.

I hope the people responsible for this can sleep at night.

I would appreciate a response to this letter.

Thank you

Dear Mr. Alan Schriber,

I became aware of bill 221 while listening to radio station WHBC. I am opposed to bill 221. I urge you, as chairman of PUCO, to vote against this bill.

Sincerely,
Barbara Kuska

Mr Schrider

I am an AEP customer and I do not want bill 221 to pass. I can't see anyway to pay more with my work slowing to 2 or 3 days a week. I do my part by keeping light off and heat down. This bill would just make things that are bad worse.

Hope you can help keep the bill for passing.

Allen Schreiber

I'm writing about the Bill 221 on PUCO.

I heard that you and your helpers want to put a charge on electric bill plus everyone will pay a flat fee. That is not fare if I live in a small house and someone else a big house or home and have a bigger electric Bill We live on a set income no extra money coming in. My husband is retired and unable to make extra money. Had a stroke 14 yrs ago. 2 open heart surgery's. and we have a lot of medical bills plus medicine bills we have around 300.00 in medicine or more. So I try ~~to~~ to baby sit to give a little extra money when I can. We don't get any help from anyone. Sure can't afford to have any more bills to pay more. We are on a fixed income once a month When my husband had the stroke he lost the use of his left arm. So that leaves me to do everything

(over)

does not drive so I have that to do also

I think you better think before you take it away from us poor people out there trying to make ends meet

We cut back on a lot of things never went on a vacation in years, go out to eat, movies, etc. All we do is stay home except to go to Dr's + store.

I'm not the only one that don't want this to happen. We even have cut back on our electric when we can plus our heat.

So I hope to hear from you.

Thank You
