COMMENT DESCRIPTION:

It is my understanding that AEP has submitted an application for a rate increase of 15% per year for the next 3 years. Where is the voice of all the politicians etc. who told us if we only deregulated the utilities it will result in greater competition, and lower rates for the consumer. As usual peoples short memories, of previous promises have become evident. Those who promoted deregulation have been proven wrong by the facts before us. I say no to their rate increase and lets again regulate the utilities as they should be for the public good. Please docket the attached in the case number above.
