## COMPLAINT DESCRIPTION:

I strongly protest DP&L's decision to pass the storm damage on to us. The economy is weak, we are all reeling from the recession. DP&L must not be allowed to pass on 'their' costs to provide storm damage repair service to us. Using their justification, then I feel

they must also pass on savings to us from

profits when there are no storms. They are a public utilities company and I feel they should consider this cost as part of doing business and just suck it up.

Also using their thinking process, why should I pay for this storm damage when my power was not out at all???
