February 20, 2009

Public Utilities Commission of Ohio
ATTN: Docketing Division
180 E. Broad St.
Columbus, OH 43215

To Whom it may concern:

Subject: Case #08-1094-EL-SSO

With regard to Dayton Power and Light's proposed electric security plan filed with the PUCO, which would allow for increases in rates for fuel costs, purchased power, energy efficiency, and renewable energy requirements under the new energy law, **WE ARE VERY OPPOSED TO THIS.**

We are against the generation increase rates in 2010 by 5.4 percent.

We believe the deferrals of fuel and purchased power costs should be eliminated. We also oppose the collection of lost generation revenues related to energy efficiency measures.

Our energy bill for services from Dayton Power and Light is already extremely high. **WE ARE OPPOSED TO ANY RATE INCREASES DEFINED IN CASE #08-1094-EL-SSO.**

We trust you will consider our opposition to this Case number, above.

Sincerely,

Elmer Ray Tidd
