COMPLAINT DESCRIPTION:

We should not have to be penalized for an act of God. The economy is bad enough without having to be stressed and pinched by additional utility charges. This is a cost of doing business for Duke and they should owe to to this. They earn enough profits for normal routine utility fees. Our economy will never correct itself if the common person has to pay the penalty for a major corporation. I have enough expenses and problems of my own to face to survive through our current economic condition. Lets get real and have this company owe up to their own issues and not punish the common person for something we had no control over. It is merely a cost of doing business.
