Broadvox-CLEC by this Application seeks authority to provide resold and facilities-based/UNE local exchange and interexchange telecommunications services to the public by initially reselling services and purchasing unbundled network elements (UNE) obtained from and utilizing facilities provided by facilities-based carriers. At this time the company has no plans to install facilities in the State of Ohio, but may do so in the future. For local exchange service, Broadvox-CLEC will initially mirror the existing local calling areas of incumbent local exchange telephone companies. Broadvox-CLEC intends to provide intrastate exchange telecommunications services including:

1. Interexchange (switched and dedicated services):

- A. 1+ and 101XXXX outbound dialing;
- B. 800/888 toll-free inbound dialing;
- C. Calling cards; and
- D. Data services.

2. Local Exchange:

- A. Local Exchange Services that will enable customers to originate and terminate local calls in the local calling area served by other LECs, including local dial tone and custom calling features.
- B. Switched local exchange services such as flat-rated and measure-rated local services; vertical services, carrier access, and any other switched local services that currently exist or will exist in the future.

- D. Centrex and/or Centrex-like services that currently exist or will exist in the future.

The company will be including CTS services within its CLEC filing herein.

EXHIBIT D– Description of the proposed Market Area

The applicant proposes to provide local service in all areas in the State of Ohio serviced by AT&T Ohio and Verizon, and interexchange service statewide.

EXHIBIT E– Explanation of how the proposed services in the proposed market area are in the public interest

Granting this application will promote the public interest by increasing competition in the provision of telecommunications services in Ohio.

Broadvox-CLEC, LLC will provide customers high quality, cost effective telecommunications service, with an emphasis on customer service. In addition to driving prices closer to costs, thereby ensuring just and reasonable rates, competition also promotes efficiency in the delivery of services and in the development of new services. These very real benefits work to maximize the public interest by providing continuing incentives for carriers to reduce costs, while simultaneously promoting the availability of potentially desirable services.

Applicant is currently authorized for Interexchange Services in Arkansas, Colorado, Idaho, New Jersey and Texas; Interexchange and Local Authority in Indiana, Iowa, Kentucky, New Hampshire, Oregon, Rhode Island, Vermont, Washington and Wisconsin service. Applicant is in the process of applying for authorization to provide competitive local exchange and interexchange services in the 48 contiguous states and Hawaii. Applicant has not been denied authority for any of the services for which it seeks authority in this Application.

When it initiates service in Ohio, Broadvox-CLEC proposes initially to provide resold local exchange and interexchange telecommunications services, and local services using the UNEs and UNE replacement, utilizing ILEC facilities. Although the company has no current plans to install facilities in the State of Ohio, it may do so in the future. Initially, the local services Broadvox-CLEC intends to offer are likely to be those local exchange telecommunications services offered by incumbent local exchange carriers in the proposed service area.

If Broadvox-CLEC installs facilities in Ohio, it will probably use the following or a similar configuration of equipment: Broadvox-CLEC will provide voice and high speed data services through a combination of the latest technology switching and transport media comprised of the Lucent Technology 5 ESS Generic 13 switch module, xDSL transport and Internet service equipment and the latest Optical multiplexer DAC's configurations. The switching system consists of a central processing and control complex capable of interconnection as a peer to the incumbent as well as competitive local exchange companies. The hub portion of the switch will interconnect with the public switched network on Signaling System 7 ("SS7") or Feature Group D ("FGD") facilities. The system's remote module capability will allow properties to be served in a manner that provides the exchange of appropriate signaling, control and calling/caller information to the network in accordance with network standards and specifications. Additionally, these services will be delivered over a combination of delivery mechanisms through incumbent local carriers' unbundled loop network, both copper and fiber and transport networks, as well as via Broadvox-CLEC constructed facilities.

1.8.1 Deposits

A Applicants for service may be required prior to establishing service to provide the Company a security deposit. The deposit requested will be in cash or the equivalent of cash, and will be held as a guarantee for the payment of charges. B The deposit will not exceed an amount equal to two month's average monthly bill for all regulated competitive local exchange services for ensuing twelve months, plus thirty percent (30%) of estimated monthly charges.

The Company will refund the deposit to the customer by direct payment, or, at the customer's request, apply the deposit as a credit to the customer's account.

B When a service or facility is discontinued, the amount of a deposit, if any, will be applied to the Customer's account and any credit balance remaining will be refunded within 45 days from the date of termination. Before the service or facility is discontinued, the Company will return the deposit to the customer or, at the customer's request, apply the deposit as a credit to the Customer's account.

Customer shall be liable for all accrued local charges, directory charges, long distance charges and other charges arising prior to the service commencement date, as defined herein, and shall pay the Company for any such charges which may be assessed against the Company in any manner.

B All service, monthly recurring charges and non-recurring charges are due and payable within 14 days of the post mark on the bill, provided however, that installation charges may be spread out over 3 months.

C The Company shall present bills for recurring charges monthly to the Customer, in advance of the month which service is provided.

1. Competitive Local Exchange Service Regulations (cont'd)

1.8 Payment Arrangements (cont'd)

1.8.4 Bills and Collection of Charges (cont'd)

D For new customers or existing customers whose service is disconnected, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have 30 days.

E A late payment charge of 1.5% is not applicable to subsequent rebilling of any amount to which a late payment charge has already been applied. Late charges are to be applied without discrimination.

F A charge of \$25 will be assessed for checks with insufficient funds or non-existing accounts. The Company may waive the bad check charge under appropriate circumstances.

G If Customer chooses to place information services provider (ISP) calls or receives calls via a non-Broadvox-CLEC, LLC affiliated carrier, customer will be liable for all charges related to such calls; including without limitation, charges billed to the Company or Customer by ISP or other carriers, any applicable rebilling charge and charges for any service provided by the Company or its affiliates.

1.8 Payment Arrangements (cont'd)

1.8.5 Disputed Bills

A The Customer shall notify the Company of any disputed items on a bill within a reasonable period of time after receipt of the bill. The existence of a disputed amount does not relieve the customer of their obligation to pay current charges. If the Customer and the Company are unable to resolve the dispute to their mutual satisfaction, the Customer may file a complaint with the Commission in accordance with the Commission's rules of procedure.

B The date of the dispute shall be the date the Company receives sufficient documentation to enable it to investigate the dispute.

B. Measured Rate

1. Measured Rate Services

The local usage charges are based upon four measured elements, i.e., the total number of outgoing local messages, the distance and the duration of each local message and the time of day each local message is originated, subject to the following:

a. Distance

The charges for local messages vary based on the airline distance (i.e., rate mileage) between the rate centers of the central offices serving the calling and called stations.

b. Duration

(1) A charge applies for the initial minute, or fraction thereof, and for each additional minute, or fraction thereof.

(2) A local message is considered as starting at the time telephone communication is established between the calling station and the called telephone number.

(3) Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by the automatic timing equipment in the telephone network.

(4) Chargeable time does not include time lost because of faults or defects in the service.

3.2 Advanced Features

G. Direct Inward Dial (DID) Service

DID service is an optional feature which can be purchased in conjunction with Company-provided Basic Trunks or Digital Trunks. DID service transmits the dialed digits for all incoming calls allowing the Customer's PBX to route incoming calls directly to individual stations corresponding to each individual DID number. Charges for DID capability and DID numbers apply in addition to charges specified for Basic Trunks or Digital Trunks.

So the Company may efficiently manage its number resource, the Company, at its sole discretion, reserves the right to limit the quantity of DID numbers a Customer may obtain. Requests for 300 or more DID numbers must be provided to the Company in writing no less than five (5) months prior to activation. In addition, the Company reserves the right to review vacant DID stations or stations not in use to determine their utilization. Should the Company determine, based on its own discretion, that there is inefficient number utilization, the Company may reassign the DID numbers.

The Customer has no property right to the telephone number or any other call number destination associated with DID service furnished by the Company, and no right to the continuance of service through any particular end office. The Company reserves the right to change such numbers, or the end office designation associated with such numbers, or both, assigned to the Customer, whenever the Company deems it necessary to do so in the conduct of its business.
