COMMENT DESCRIPTION:

Why is the PUCO allowing the 6-8% increase on electricity. Did you require the CEO and executive staff along with the board to reduce their salaries and bonus schedule by the same amount. If they were paid in the low 6 figures, would AEP need the increase? PUCO is doing a poor job, in this case, in a state where people have been massively losing jobs for 10 years. Not just since 2007.
