Customer states that his bill was 1.9 cents per kwh. Company req'd an increase to 2.5 cents per kwh - that lasted about a month. This month, the customer is no longer on the all-elec discount rate and is now at 7.6 cents per kwh.

Advised the all-electric rate was removed effective January 2009. Advised the rate was removed to promote conservation/competition.

Customer thinks this is dumb. Advised will notate his concerns. Customer wants the names of Commissioners so he can vote against them. Advised they are nominated by a council - not through public vote.

Advised will add his concerns to the docket.

Invited cb with any other UR concerns.
