Re: Case Number 99-1170-TP-DTA

Dear Ms. Mion:

Pursuant to the Public Utilities Commission of Ohio Case Number 99-1170-TP, attached herewith is an Appendix A for Adelphia Business Solutions of Ohio, Inc. (Hyperion Communications of Ohio, Inc. changed its name to Adelphia Business Solutions of Ohio, Inc. on September 29, 1999. I have attached the appropriate Certificate of Incorporation for your records.). I apologize for the delay in filing this information.

Kindly date stamp the extra copy of this transmittal letter and return it in the prepaid postage envelope which has been provided for your convenience. If you or anyone at the Commission has any questions or concerns regarding this matter, please contact the undersigned at (412) 220-5191.

Very truly yours,

Jennifer Anderson, Esq.
Manager of Legal and Regulatory Affairs
Adelphia Business Solutions, Inc.

Enclosures

BEFORE

THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Commission's Collection)
of Data with Respect to the Provision of) Case No. 99-1170-TP-DTA
Service by New Entrant Carriers.)

ENTRY

The Commission finds:

- (1) In Case No. 95-845-TP-COI, by Entry on Rehearing dated February 20, 1997, the Commission issued its Local Service Guidelines which, among other things, provides for the certification of new entrant carriers (NECs) to compete in the provision of local exchange service. The certification requirements currently allow NECs to be certified in a wider area than they may presently be able to serve. It is incumbent upon the NECs to keep the Commission informed of where they are actually serving at any given time by filing tariff amendments depicting the current service area. Unfortunately, it has been our experience that NECs are not keeping their tariffs up-to-date.
- (2) The Commission, through its various departments, is frequently asked for information about which NECs are available to provide service in specific areas of the state. There is also interest in which NECs are providing service in specific areas of the state via resale or through their own facilities, along with whether or not residential service is currently available. These contacts come from various sources such as Ohio's consumers (both business and residential), the legislature, and the media.
- (3) In order that we may more readily serve Ohio's telephone consumers, the Commission finds it critical that we have this information readily available. To that end, Appendix A to this entry provides a data request to each of Ohio's certified NECs to update the status of all NECs operating in Ohio. We seek this information at the exchange level so that we may respond in a precise manner to the inquiries received. We seek information on:
 - (a) Where the NEC is currently operational;
 - (b) Where the NEC is currently able to provide service if different from (a);
 - (c) Whether service is being provided on a resale basis, via the NEC's facilities, or a combination of both;
 - (d) Whether service for business, residential, or both is currently available; and

- (e) A phone number, address, and E-Mail and web site address (if available) where the Commission can refer customers or potential customers to call or write for information.
- (4) To facilitate our use of this data, Appendix A provides a uniform format in which the information is to be provided. We are also making this form available via our web site (www.puc.state.oh.us/OHIOUTIL/telecom/necdata/index.html) for those NECs that prefer to utilize an electronic version, or you may contact staff to obtain the form on a diskette.
- (5) The Commission intends to seek this information at least twice a year. The initial submission of this data is due on or before November 15, 1999. Subsequently, each certified NEC shall file this data in this docket biannually on March 15 and September 15 each year.

It is, therefore,

ORDERED, That in accordance with Findings (4) and (5), NECs certified to provide service in Ohio shall provide responses to the questions presented in Appendix A. It is, further,

ORDERED, That copies of this Entry be served upon all NECs certified in Ohio.

APPENDIX A

INSTRUCTIONS:

Due dates: The attached data is required initially to be filed in this docket on or before November 15, 1999. Thereafter, updates to this data are required to be filed in this docket twice each year, on March 15 and September 15.

Format: Each new entrant carrier (NEC) is required to provide the information in the exact format provided in the attached. It would also be helpful if such information were also provided to staff electronically utilizing Microsoft's Excel or Lotus 1-2-3 software. However, if no changes have occurred since the last report, a letter filed in this docket will suffice. Information is to be provided on an exchange basis, with an "X" placed in all applicable cells. Exchanges where none of the fields are applicable to your company should be left blank.

Company Information: As depicted on the form, the first page of the data shall contain the NEC's name (including d/b/a, if applicable), its certificate number, Case No. 99-1170-TP-DTA, the date the material was prepared, and the mailing address, phone number and the E-Mail and web site address (if available) that consumers can utilize to obtain information about your service offerings. Subsequent pages shall contain the NEC's name, certificate number, date of preparation, and page number.

Data Field Definitions:

1. **Operational:** This field is for those exchanges where the NEC is actually providing local exchange service to at least one customer.
2. **Available:** This field is for those exchanges where the NEC has authority (a certificate, approved tariff, and an interconnection agreement) to provide service, and is able to provide service, but has not yet obtained a customer.
3. **Resale:** Check off this field if you are providing or stand ready to provide service in the exchange, in whole or in part, through total service resale of the incumbent local exchange carrier's service or via UNE platform.
4. **Facilities:** Check off this field if you are providing or stand ready to provide service in the exchange, in whole or in part, through your own switch.
5. **Business:** Check this field if you are providing or stand ready to provide (with appropriate tariffs in place) service in the exchange to business customers.
6. **Residential:** Check this field if you are providing or stand ready to provide (with appropriate tariffs in place) service in the exchange to residential customers.

You may find it helpful to refer to our telephone exchange maps on our web site, which located at:
