COMMENT DESCRIPTION:

For Your Information and Action:

First Energy Corp, Headquartered in Akron, Ohio has recently announced to their employees and retirees plans to significantly reduce and in many cases the eventual elimination of their subsidization of employee and retiree medical benefit costs.

Since these costs have long been considered a part of doing business in this State, allowance for these costs have been included in the rates that this company charges. What this Company has paid and currently pays to subsidize these benefits are known quantities and are easily tracked.

This move will undoubtedly cause difficulties for many, if not all, the affected Employees and Retirees.

In light of this company's shortsighted plan to make this Draconian move to reduce their costs, I suggest and recommend that adjustments be made in the rates that this utility charges their customers be made immediately as these reductions take effect.

It is unnecessary for you to contact me regarding this matter, but I filled in the "contact me" box so that you have access to my address and phone information if needed.
