

**Case No. 09-549-EL-REN**  
**NedPower Mt Storm**  
**Staff Interrogatories - Initial Set**

Question 1: In Section B (Facility Owner), please provide the Applicant's legal name.

Answer 1: Alan Forster

Question 2: Please fill out Section C. Presumably, the application is for the purpose of generating RECS that may be used by a company in Ohio to comply with the renewable requirement under Ohio law and the sale of those RECS to these companies.

Answer 2:

Applicant's Legal Name: Alan Forster

Title: VP Operations

Organization: NedPower Mt Storm, LLC

Owner's Address:

Street Address: 910 Louisiana

City: Houston

State: Tx

Zip Code: 77002

Country: USA

Phone: 713-241-4238

Fax: 713-241-5541

Email Address: [alan.forster@shell.com](mailto:alan.forster@shell.com)

Web Site Address (if applicable): not applicable

Question 3: Please provide the date or dates that the photographs were taken of the installed facility (Exhibits D and E).

Answer 3: August 28, 2008

Question 4: In Section G.3.a please provide the generator nameplate capacity (kilowatts DC). The response you have provided is 2 meters.

Answer 4: 2,000 kilowatts

Question 5: In Section I please provide the number of generating units in the facility.

Answer 5: 132

Question 5: In Section I.1 please provide the in-service date of each unit, the nameplate capacity of each unit in megawatts, and the projected annual generation of each unit.

Answer 5:

<b>Turbine Number</b>	<b>Test Power Generation</b>	<b>Nameplace Capacity (MW)</b>	<b>Projected Annual Generation</b>

<b>Total</b>			<b>745,000</b>

Question 6: Please explain why you categorize this facility as a net-metering project.

Answer 6: The substation meter (billing meter and meter used to generate RECs) captures, on a net basis, energy produced and consumed for the windfarm.

Question 7: In Section N, for both of the meters you have depicted in the photographs, please indicate the total kWh shown on the meters at the time of the photograph.

Answer 7:

Exhibit A: 1,205,000 kWh

Exhibit B: 1,204,000 kWh

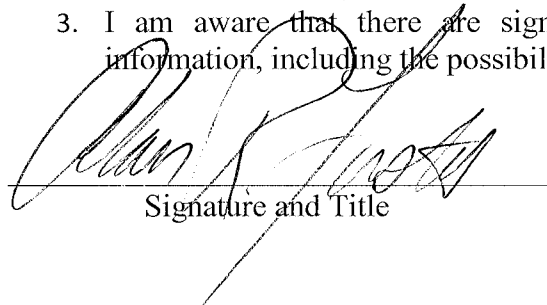

Question 8: In Section H, you indicate that the entire facility became operational on 11/01/08. Were some of the wind turbines operational before 11/01/08? If so, please specify the number of turbines that were operational before 11/01/08 and identify the dates when those turbines became operational.

Answer 8: (see question #5)

Question 9: Please provide a clear explanation as to how the generation from your facility is measured, including how the generation is independently measured from the Meadow Brook facility.

Answer 9: Revenue meters are located in the Greenland Gap substation and are net metered at that point. PJM billing and REC generation is based off of these meter readings.

1. I am the duly authorized representative of NedPower Mt Storm.
2. I have personally examined and am familiar with all information contained in the foregoing responses, including any exhibits and attachments, and that based upon my inquiry of those persons immediately responsible for obtaining the information contained in the responses, I believe that the information is true, accurate and complete.
3. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.
