SUBJECT: Case Nos. 09-<sup>895</sup>-EL-ATA  
06-0653-EL-ORD  
89-6001-EL-TRF

Dear Ms. McCauley:

In response pursuant to the Commission's Order in Docket No. 06-653-EL-ORD requiring changes to The Cleveland Electric Illuminating Company's Electric Service Tariffs and the modification of specific line extension language therein, enclosed please find an original and 15 copies of the proposed filing for The Cleveland Electric Illuminating Company.

Please open a new ATA docket and assign a case number. Also please file one copy of this filing in Case No. 06-0653-EL-ORD, one copy in Case No. 89-6001-EL-TRF, and return two time-stamped copies (with the assigned case number) in the enclosed envelope.

Thank you.

Sincerely,

Steven E. Ouellette  
Director, Rates & Regulatory Affairs

1. APPLICANT RESPECTFULLY PROPOSES: (Check applicable proposals)

<input type="checkbox"/> New Service	<input type="checkbox"/> Change in Rule or Regulation
<input type="checkbox"/> New Classification	<input type="checkbox"/> Reduction Rates
<input type="checkbox"/> Change in Classification	<input type="checkbox"/> Correction of Error
<input checked="" type="checkbox"/> Other, not involving increase in rates	
<input type="checkbox"/> Various related and unrelated textual revision, without change in intent	

2. DESCRIPTION OF PROPOSAL: Reflect changes proposed pursuant to the Commission's Order in Docket No. 06-653-EL-ORD requiring the modification of specific line extension language for The Cleveland Electric Illuminating Company.

3. TARIFFS AFFECTED: (If more than 2, use additional sheets)

4. Attached hereto and made a part hereof are: (Check applicable Exhibits)

☒ Exhibit A - existing schedule sheets (to be superseded) if applicable

☒ Exhibit B - proposed schedule sheets

\_\_\_ Exhibit C-1

- a) if new service is proposed, describe;  
Description included on attached Exhibit C-1.
- b) if new equipment is involved, describe (preferably with a picture, brochure, etc.)  
and where appropriate, a statement distinguishing proposed service from existing  
services;
- c) if proposed service results from customer requests, so state, giving if available,  
the number and type of customers requesting proposed service.

\_\_\_ Exhibit C-2 - if a change of classification, rule or regulation is proposed, a statement  
explaining reason for change.

X Exhibit C-3 - statement explaining reason for any proposal not covered in Exhibits C-  
1 or C-2.

- 5. This application will not result in an increase in any rate, joint rate, toll, classification, charge  
or rental.
- 6. Applicant respectfully requests the Commission to approve the requested changes to Cleveland  
Electric Illuminating Company's Electric Service Tariffs and the modification of specific line  
extension language and to authorize the Cleveland Electric Illuminating Company to file same  
in final form, and to be in the form and content shown in Exhibit B.

## **ELECTRIC SERVICE REGULATIONS**

### **B. Line Extensions**

#### **1. Definitions:**

General Service Installation - Any Line Extension request for Secondary, Primary or Subtransmission level service by a commercial or industrial customer, builder, or developer, or any other Line Extension that is not either a Residential Installation or a Transmission Installation. Customers in a development may be required to have their own General Service Installation in order to be connected to the Company's distribution system.

Line Extension - the provision of such facilities (poles, fixtures, wires and appurtenances) as are necessary for delivering electrical energy to one or more customers located such that they cannot be adequately supplied from a secondary system of the Company's existing distribution system.

Multi-Family Installation - Any Line Extension to a new residential dwelling that will have two or more dwelling units, where each unit has a separate account for electric service with the Company.

Non-Standard Single Family Installation - Any Line Extension to a new home (or home site) where the service connection requested is no more than 200 amp/single phase service, where the Company's cost to build the Line Extension is \$5,000 or greater, and where no premium service is requested. A home with a Non-Standard Single Family Installation will have one account for electric service with the Company.

Residential Installation - A Standard Single Family Installation, a Non-Standard Single Family Installation, or a Multi-Family Installation.

Standard Single Family Installation - Any Line Extension to a new home (or home site) where the service requested is no more than 200 amp/single phase service, where the Company's cost to build the Line Extension is less than \$5,000, and where no premium service has been requested. A home with a Standard Single Family Installation will have one account for electric service with the Company.

Transmission Installation - Any Line Extension request for Transmission Service by a commercial or industrial customer, builder or developer.

Premium Installation - Any Line Extension including, but not limited to, customer-requested oversizing of facilities and underground construction.

#### **2. Terms And Conditions:**

##### **Premium Service:**

- a. For any residential project, where a customer, builder, or developer requests a Line Extension involving a "Premium Installation", the customer, builder, or developer shall make an up-front payment to the Company equal to the Company's cost to provide the Premium Installation minus the Company's cost to install a Line Extension for 200 amp/single phase service for the project..

### **ELECTRIC SERVICE REGULATIONS**

- b. For any general service project, where a customer, builder, or developer requests a Line Extension involving a "Premium Installation", the customer, builder, or developer shall make an up-front payment to the Company equal to the Company's cost to provide the Premium Installation minus the Company's least cost to install, in accordance with good utility practice, a standard line extension to the project.
3. **Line Extensions On Private Property:** Customers that require Line Extensions to be constructed on their private property shall, in all cases, provide, without cost to the Company, land clearance, trenching and backfilling (including excavation for and installation of vaults), and an easement for right-of-way in a form acceptable to the Company before the Company's construction is started. The expectation that property will be dedicated to the public use at the conclusion of construction shall not preclude such property from being deemed the customer's private property for purposes of this subsection 3. All Line Extensions shall be the property of and shall be operated and maintained by the Company. The Company shall have the right to use such Line Extension in furnishing service to any applicant located adjacent to such Line Extension and the further right to construct other extensions from the distribution facilities so constructed. Except as provided herein, no customer or third party installation of Line Extension facilities will be permitted on private property or public right-of-way.
4. **Relocation For Residential, Commercial Or Industrial Customer:** A change in location of an overhead or underground service for the customer's convenience shall be made at the customer's expense.
5. **Relocation For Highway, Street Or Public Works Project:** A change in location of an overhead or underground service to provide space necessary for highway, street, or public works projects shall be made in accordance with the contractual agreement with the government entity involved.
6. **Other Items:**
  - a. The Company shall not be required to begin construction on any Line Extension until all required applications have been made by the customer, developer, or builder, as applicable.
  - b. The Company shall not be required to install Line Extensions using rear lot line construction. The Company may elect, however, to use rear lot line construction at no additional cost to the customer.
  - c. Line Extension cost estimates should not include costs normally incurred by the utility to maintain, protect, or upgrade its distribution system. Nor should system improvements required for the general distribution system that serves multiple customers, which are driven by the customer's load addition, be factored into the Line Extension calculations.

### **VIII. USE OF SERVICE**

- A. **Increased Loads:** The customer shall notify the Company of any significant additions or modifications to the customer's facilities that will affect the customer's load characteristics so that the Company may provide facilities sufficient to maintain adequate service.
- B. **Individual Customer Metering:** Service will be supplied under the appropriate rate schedule, to each separate dwelling (single or part of a multiple unit), apartment, farm, commercial or industrial establishment as one customer through one meter or one unified set of meters for each class of service.

## **ELECTRIC SERVICE REGULATIONS**

### **B. Line Extensions**

#### **1. Definitions:**

Contribution in aid of construction - any amount of money or property contributed to the Company to the extent that the purpose of the contribution is to provide for Line Extensions for new or expanded customer loads.

Cost estimate - the detailed projected expenditure, including material costs and overhead, equipment costs and overhead, labor costs and overhead, and all taxes associated with each major material and service component, required for a Line Extension.

General Service Installation - any Line Extension request for Secondary, Primary or Subtransmission-level service by a commercial or industrial customer, builder, or developer, or any other Line Extension that is not either a Residential Installation or a Transmission Installation. Customers in a development may be required to have their own General Service Installation in order to be connected to the Company's distribution system.

Line Extension - the provision of such facilities (including, but not limited to, poles, fixtures, wires and appurtenances) as are necessary for delivering electrical energy from the point where a Line Extension connects with and receives energy from any existing transmission or distribution equipment (the nearest practical point to the customer(s) to be served by the Line Extension at which the appropriate voltage level is available) to one or more of a customer's points of delivery located such that they cannot be adequately supplied from a secondary system of the Company's existing distribution system.

Multi-Family Installation - any Line Extension to a new residential dwelling that will have two or more dwelling units, where each unit has a separate account for electric service with the Company.

Non-standard multi-family installation - any Line Extension to a new residential dwelling that will have two or more dwelling units, where each unit has a separate account for electric service with the Company where the Company's cost to build the Line Extension is greater than \$2,500, excluding any Premium installation cost.

Non-Standard Single Family Installation - any Line Extension to a new home (or home site) with one account for electric service with the Company where the service connection requested is no more than 200 amp single phase service, where the Company's cost to build the Line Extension is greater than \$5,000, excluding any Premium installation cost or greater, and where no premium service is requested. A home with a Non-Standard Single Family Installation will have one account for electric service with the Company.

Premium installation - any Line Extension that is in excess of the standard construction and requirements necessary to provide electric service to the customer, including, but not limited to, customer-requested oversizing of facilities, underground construction, Residential Installations exceeding 200 amps and three phase Residential installations.

Premium installation cost - the sum of the Company's cost to provide Premium installation minus the sum of the Company's cost of the standard construction and requirements necessary to provide electric service to the customer.

The Cleveland Electric Illuminating Company  
Cleveland, Ohio

P.U.C.O. No. 13

Original Sheet 4  
1<sup>st</sup> Revised Page 8 of 25

### ELECTRIC SERVICE REGULATIONS

Residential Installation - a Standard Single Family Installation, a Non-Standard Single Family Installation, or a Standard Multi-Family Installation, or a Non-standard multi-family installation for a single phase Line Extension.

Standard multi-family installation - any Line Extension to a new residential dwelling that will have two or more dwelling units, where each unit has a separate account for electric service with the Company where the Company's cost to build the Line Extension is less than or equal to \$2,500 excluding any Premium Installation cost.

Standard Single Family Installation - any Line Extension to a new home (or home site) with one account for electric service with the Company where the service requested is no more than 200 amp/single phase service, where the Company's cost to build the Line Extension is less than or equal to \$5,000, excluding any Premium Installation cost and where no premium service has been requested. A home with a Standard Single Family Installation will have one account for electric service with the Company.

Transmission Installation - Any Line Extension request for Transmission Service by a commercial or industrial customer, builder or developer.

Premium Installation - Any Line Extension including, but not limited to, customer requested oversizing of facilities and underground construction.

## **2. Terms And Conditions:**

### Residential installations:

#### a. Non-standard single family installation:

The customer shall make arrangements with the Company for the payment to the Company of the Company's cost to build the Non-standard single family installation that exceeds \$5,000, excluding any Premium installation cost. The individual homeowner (non-developer) has the option of paying such costs, plus carrying costs based on the rate of return approved in the Company's then most recent distribution rate case, on a prorated monthly basis for up to fifty months.

#### b. Non-standard multi-family installation:

The customer shall make arrangements with the Company for the payment to the Company of the Company's cost to build the Non-standard multi-family installation that exceeds \$2,500, excluding any Premium installation cost.

### General service installations:

A customer requesting a General service installation shall make an up-front payment to the Company equal to 40% of the Company's estimated cost for construction of the Line Extension, plus any and all Premium installation cost.

### Premium installation Service:

a. For any residential project, where a customer, builder, or developer requests a Line Extension involving a "Premium Installation", the customer, builder, or developer shall make an up-front payment to the Company equal to the estimated Company's cost to provide the Premium Installation minus the Company's cost to install a Line Extension for 200 amp/single phase service for the project.

### **ELECTRIC SERVICE REGULATIONS**

~~b. For any general service project, where a customer, builder, or developer requests a Line Extension involving a "Premium Installation", the customer, builder, or developer shall make an up-front payment to the Company equal to the Company's cost to provide the Premium Installation minus the Company's least cost to install, in accordance with good utility practice, a standard line extension to the project.~~

Future customers:

A customer may be entitled to a refund of a portion of the amounts such customer paid for a Line Extension, other than for Premium Installation. Any amounts refunded shall be paid in accordance with the following:

If a new customer ("Customer 2"), utilizes, within fifty months of the completion of a Line Extension project, all or part of the Line Extension facilities for which contribution in aid of construction ("CIAC") has been paid by a previous customer (the "Original customer"), then the Original customer who paid the CIAC may be entitled to a refund which represents a pro rata portion of the original CIAC, calculated to equitably share the CIAC responsibility for the Line Extension facilities used in service by both Customer 2 and the Original customer. If any new additional customer ("Customer 3"), utilizes, within fifty months of the completion of the Line Extension project, all or part of the Line Extension facilities for which CIAC has been paid by the Original customer and Customer 2, then Customer 2 who paid an equitable portion of the CIAC may also be entitled to a refund.

3. **Line Extensions On Private Property:** Customers that require Line Extensions to be constructed on their private property shall, in all cases, provide, without cost to the Company, land clearance, trenching and backfilling (including excavation for and installation of vaults), and an easement for right-of-way in a form acceptable to the Company before the Company's construction is started. The expectation that property will be dedicated to the public use at the conclusion of construction shall not preclude such property from being deemed the customer's private property for purposes of this subsection 3. All Line Extensions shall be the property of and shall be operated and maintained by the Company. The Company shall have the right to use such Line Extension in furnishing service to any applicant located adjacent to such Line Extension and the further right to construct other extensions from the distribution facilities so constructed. Except as provided herein, no customer or third party installation of Line Extension facilities will be permitted on private property or public right-of-way.
4. **Relocation For Residential, Commercial Or Industrial Customer:** A change in location of an overhead or underground service for the customer's convenience shall be made at the customer's expense.
5. **Relocation For Highway, Street Or Public Works Project:** A change in location of an overhead or underground service to provide space necessary for highway, street, or public works projects shall be made in accordance with the contractual agreement with the government entity involved.
6. **Other Items:**
  - a. The Company shall not be required to begin construction on any Line Extension until all required applications have been made by the customer, developer, or builder, as applicable.
