RECEIVED-DOCKETING DIV.

2009 OCT 13 AM 9:34

PUCO

My name is: Lester L. Lemke
My address: 3270 ST. RT. #590
Elmore, Ohio 43416

I About My Windmill:

on April 3, 2007 Mr. Reineck arranged a wind generator testing to see if there was any feedback on FE's lines. 3 FE employees came out to do the testing. They pulled the meter from the house & run test's. They told me all was O.K. & I could run the wind mill. Then a week later Rich Reineck called & said we had to shut the wind mill's down. the testing was not right. They did not meet the UL & IEEE 1547.

If The Rate's we get on what we put out on FE's lines's: Rich Reineck said we get 3 cents of 1¢/K.W. or about nothing! he said that is about right!

III

My Wind mill is a Jacobs Wind Turbine 17.5 K.W. - 80 feet high. I just want to generate Elec. from the wind. I want the Wind Turbine to meet all Standard's. & Since F.E. Messed up on the testing the should be Responsible for any or all the equipment the wind mill might need.

IV

My Special Rate: 10 yr's ago F.E. came to my house (Bob William's) told me if I got a Geothermal Heat-Pump System & went Total Elec. I could have a Special Rate. 4.2¢/K.W. March of 2007 my Rate went to 7.0 K.W & Now its 7.25 K.W & Rich Reimerts say it was going to go higher!

IV Why didnt they tell me 10 y's ago that
In 10 y's we are going to Raise your
Rates to what everyone is Paying. (I
never would have gone to Total Elec.)
To me F.E Is Not Fair to People. When
they do things like that? Now I have
a \$10,000.00 Fee. + high Rates.

Some People around here still have
the Special Elec. Rate. That does not
Seem Right?

Kathy ask me Fri. Oct 2nd what I
thought was a good Rate + I Sayed
8 or 9 Cents / K.W. + The Return of my
Special Rate.

II The Meter on the house:

Something must be done with the Digital
Meter's = Only for Windmill operators.

I do not like the meter.

I am not happy with the way F.E. is
handling these problems.

This is all I have for now: Thank you

John R. Lantke
