Re: Buckeye Wind Project – Case No. 08-0666-EL-BGN

This letter is to express my opposition to the above project. The vast majority of residents of Champaign County will not benefit from construction of these turbines.

The only people that will benefit from this project are the Wind Turbine Company and a handful of property owners who have leased their land. These turbines will prohibit any future growth of Champaign County. They will stop the progress being made at Grimes Airport. They will infringe on the property rights of others and they will lower property values. If any monies are to be gained from them, the gain will be offset by the reduction in property values.

Champaign County will suffer greatly if this project is approved.

Sincerely,

Linda Boushies
