

Ohio Power Siting Board

This concerns case # 08-0666-BL-BGN

I hope I am not too late to express how I feel about the Buckeye Wind Project being considered for Champaign County. According to the maps provided by Everpower there will be a wind turbine right behind our home. We have lived here for nearly 50 years and don't want to be driven out because the turbine is sited too close and we won't be able to use our yard safely. There will be loss of sleep and other problems caused by the turbine. That is no way to live! There will be many other problems like health issues, excessive noise, danger to wild life and devaluation of our property. Urbana may lose its Airport and the services of Care Flight. I cannot believe this can happen when this whole project will bring so little money into our county. We hear Everpower is lobbying to even lower the amount of taxes they will be required to pay. Sounds like Everpower and the lease holders are the only ones to benefit and the rest of us lose!

A very concerned homeowner in Champaign County,
