

To whom it may concern,

I am writing this letter as a plea to stop the building of over 70 wind turbines in Chompaqui County.

I do not dispute that we need to find better and more efficient means of energy and wind turbines may be the answer. This is beautiful farmland and a county of 40,000 population. It seems to me that it would be better to place them in a less populated area.

We have a lovely home that my husband and I worked hard to attain. Our whole development is going to be surrounded by these turbines and our property value will surely plummet. Not even to mention further development.

We have a growing airport and Medevac that will surely be affected.

Please investigate all options before letting this happen.

With great concern,
Mr. & Mrs. Glenn Phillips
