GENERAL REGULATIONS

4. EXCHANGE CLASSIFICATION

- 4.01. For the purpose of determining exchange service monthly base rates, exchanges are classified in rate groups according to the total exchange access lines in a local service area and the determination of exchange competitive status. The local service area is the area within which customers make calls without the payment of message toll charges and may include one or more exchanges. (C) (C)

4.02. Rate Group Classification and Limits:

<u>Exchange Rate Group</u>	<u>Total Exchange Access Lines in Local Service Area</u>	
Schedule I	1 to 3,000	
Schedule II	3,001 to 6,000	
Schedule III	6,001 to 12,000	
Schedule III-C	6,001 to 12,000	(N)
Schedule IV	12,001 to 24,000	
Schedule IV-C	12,001 to 24,000	(N)
Schedule V	24,001 to 48,000	
Schedule V-C	24,001 to 48,000	(N)
Schedule VI	48,001 and over	
Schedule VI-C	48,001 and over	(N)

- 4.03. The total exchange access lines in the local service area of each exchange shall be verified using the Company's official report of the exchange access lines in service.

5. GRADE OF SERVICE LIMITATIONS

- 5.01. In compliance with Part 4901:1-5-04 of the Code of Rules and Regulations of The Public Utilities Commission of Ohio, applications for service regrades, moves, and changes shall not be accepted for:

- A. Business service exceeding an individual line.
- B. Residence service exceeding four-party service within any base rate area, except that when the number of subscribers having four-party service in the base rate area of any exchange is less than five per cent of the subscribers in such area or when the Commission finds upon application, complaint or its own motion that the continued offering of four-party service is no longer viable then no applications for service, regrades, moves and changes shall thereafter be accepted for residence service exceeding two-party service within that area. The remaining residence four-party service in such base rate area may thereafter, with the approval of the Commission, be upgraded to a higher grade of service.

ZONE RATES

1. ZONE RATES

1.01. DESCRIPTION

Zone rates are specified monthly charges for urban grades of exchange service which do not vary with the distance from the base rate area, and are available to customers located within a zone rate area. A zone rate area is that portion of an exchange area which is beyond the base rate area and contiguous thereto, or to another zone rate area of the same exchange within which specified urban grades of service are offered at zone rates. Zone rate areas for each zoned exchange area are defined on maps in Section 3 of this tariff.

1.02. REGULATIONS

1.02.01. Application of Rates

- A. The zone rates set forth herein are applicable in all exchanges where zone rate areas have been established.
- B. The zone rates listed in this section are in addition to the rates specified in Section 2 or in Section 2.1 of this tariff for the class and grade of urban exchange service offered and rendered, and apply to each main station.

1.02.02. Grades of Service

Zone rate area exchange service is limited to business and residence classes of individual line service and residence two-party and four-party line grade of service.

BASIC TELEPHONE ASSISTANCE

4. LIFELINE ASSISTANCE

4.01. General

Lifeline Assistance is a federal support program that provides eligible customers with the following benefits:

- A recurring discount equal to the maximum contribution of federally available assistance will be applied to the monthly basic local exchange service charge; at no time should the discounts cause the monthly basic local exchange rate to be less than zero.
- A waiver of the Federal Subscriber Line Charge.
- A waiver of the Federal Universal Service Charge.
- A waiver of the state Access Recovery Charge.
- Customers have the option to purchase call waiting and an option to purchase other features for medical and/or safety reasons per O.A.C. 4901:1-5 and other applicable Commission rules and Orders.
- Free blocking of toll and 900/976 dialing patterns, upon customer's request.
- A waiver of the Telephone Company's service deposit requirement.
- A credit of one hundred percent (100%) of all nonrecurring service order charges for commencing service excluding jacks and wiring charges.

Where an increase to basic local exchange service rates arises from the determination that a specific exchange is competitive, Verizon Lifeline Assistance customer accounts will be credited for the same amount as the increase so as to offset that increase.
