Responses to Data Requests and Interrogatories Nos. 38 and 39

Hardin Wind Energy LLC
November 23, 2009

- 38. *Please provide forecasted Leq noise levels, during periods of maximum output, for all residences within the project area and within one mile of the project area. Please list, in table format, the contributing turbine(s) and residence addresses.***

See attached table. Attachment to Data Request 32, Figure A also applies to this response.

With respect to Table 38, where the name of the owner is blank, Applicant was unable to find the owner information from the County Recorder.

- 39. *For residential receptors exceeding 40 dBA (as shown in Acentech Figure 20 – Attachment 08-02):***

- A. *What are their contributing turbine numbers and corresponding addresses?***
- B. *What are the specific dBA values per residence (with addresses)?***
- C. *What are the specific distance values per residence, for these residences (with addresses)?***

See attached table. With respect to Table 39, where the name of the owner is blank, Applicant was unable to find the owner information from the County Recorder.

Table 39.

Residences with Estimated Turbine Sound Levels (dBA) above 40 dBA for Proposed 200 GE 1.5-Mile Turbine Layout.

Sound levels with operating wind condition at maximum sound output for each turbine (6 m/s wind speed) to cut out at 10m height, and for reduced wind speeds of 5, 4, and 3 m/s. Project ID for nearest turbine and distance also provided.
