TARIFF FORMAT

- A. **Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the Tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. **Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th Revised Page 14 cancels the 3rd Revised Page 14. Because of various suspension periods, deferrals, etc. the Commission follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect.
- C. **Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1
 - 2.1.1
 - 2.1.1.A
 - 2.1.1.A.1
 - 2.1.1.A.1.(a)
 - 2.1.1.A.1.(a).1
 - 2.1.1.A.1.(a).1.(i)
 - 2.1.1.A.1.(a).1.(i).(1).
- D. **Check Page** - When a filing is made with the Commission, an updated Check Page accompanies the filing. The Check Page lists the pages contained in the Tariff, with a cross reference to the current revision number. When new pages are added, the Check Page is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on the check sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on the same pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the Commission.

- (a) No credit will be given for payments made during the formerly selected period.
- (b) The new payment period begins with the new CSPP effective date.

2.11 Payment Plans and Options for Contract Services (continued)

2.11.8 Renewal Options

- A** The customer has the following renewal options:
- 1 Prior to completion of the current payment period, any period available under the CSPP may be selected at the rates in effect for new customers at the time of renewal. The customer will be charged the current rate for the newly selected payment period, commencing the day following completion of the prior payment period.
 - 2 Service may be continued on a month-to-month basis at the current rate for the one-month payment period, unless otherwise specified in this Tariff. The customer has no additional service commitment and, consequently, when service is terminated will not be subject to any termination charge. The one month service will be subject to Company-initiated rate adjustments when approved by the appropriate regulatory authority.
 - 3 If the customer does not elect an additional payment period or does not request discontinuance of service, service will be continued at the monthly rate currently in effect for the month-to-month payment rate, under the terms specified in B, preceding.
- B** Service charges are not applicable for services renewed under the CSPP. Any new rate elements added at the time of renewal will be subject to all appropriate service charges and other nonrecurring charges.
- C** The Company may discontinue or change any or all renewal options with approval of the appropriate regulatory authority.
- D** When a customer renews a CSPP arrangement, the rates and charges in effect on the first day of service of the renewal will apply.

SECTION 2 – RULES AND REGULATIONS**2.11 Payment Plans and Options for Contract Services (continued)****2.11.8 Renewal Options (continued)**

- E** Recognition of previous service will be given to customers who renew an existing CSPP arrangement, for all associated rate elements at the same location(s), provided that the length of the new CSPP arrangement is at least the minimum number of months allowable under Payment Plan A or equals/exceeds the remaining service period of the original CSPP arrangement, whichever is greater.
- F** To determine the appropriate CSPP for the renewed arrangement, recognition of service will consist of the sum of months in service of the completed service arrangement and the sum of the months of the proposed service period of the CSPP arrangement. For example, a CSPP arrangement for a thirteen month service period under Payment Plan A is renewed for twenty-four months with no changes at the end of the thirteen month period. The sum of months for the completed and proposed service periods would equal thirty seven months and would be billed under Payment Plan B. Another example is a Month-to-Month customer, in service for twelve months, who wishes to convert to a forty month CSPP arrangement with no changes. The combined service period of the Month-to-Month arrangement and the CSPP arrangement is equal to fifty-two months, which would be billed under Payment Plan B.

2.11.9 Transfer of Service

- A** Service may be transferred to a new customer at the same location upon prior written concurrence by the new customer as specified in this Tariff. This does not constitute a disconnection of service or a discontinuance of an existing CSPP arrangement. The new customer will be subject to all provisions and equipment configurations currently in effect for the previous customer. Regulations concerning transfer of service between subscribers as state in other sections of this Tariff also apply under CSPP.

2.11.10 Deferred Payment

- A Payment of nonrecurring charges for services with contract payment plans which have been approved for deferred payments may be deferred over the length of the customer's payment period or shorter period (in annual increments) subject to the conditions specified in the Tariff for the contracted service as well as the conditions following:
- 1 The charges to be deferred must be the Installation, Service Establishment and/or other nonrecurring charges (including the applicable interest).
 - 2 The payment period must be longer than one month.
 - 3 The minimum amount deferrable shall be the minimum amount set forth in the specific tariff for the contracted service.
 - 4 Interest on deferred amounts will be calculated at the rate set forth in the deferred payment agreement concurred in by both the customer and the Company. The interest rate shall be reviewed periodically by the Company. If the Company determines that the maximum interest rate allowed by law is insufficient to cover the costs of providing the deferred payment option, the Company will suspend the availability of said option until such time as the costs of providing said option can be recovered through the application of an allowed interest rate specified by law. Suspension of the deferred payment option will not affect customers with existing deferred payment agreements that were made prior to the effective date of such suspension.
 - 5 The deferred charges (including interest) will be prorated on a monthly basis over the length of the selected deferral period.

The customer may prepay the total outstanding recurring, monthly rates for contracted services, approved for prepayment, for payment periods greater than one month. The prepayment of monthly rates in no way constitutes a purchase and the Company retains full ownership of all services covered by the prepayment. The following conditions apply:

- A Customers who prepay six months or more will have an allowance applied. The interest rate credit for prepayments shall be based on market interest rates that will change periodically, and will be calculated by the Company.
- B Monthly rates for all services covered by a single Letter of Election must be prepaid. Monthly rates must be prepaid for services added subsequently and placed on the same Letter of Election (i.e., customer-elected coterminous option) with a prepaid service.
- C Customers who change the length of a prepaid payment period will be credited any unused portion of the prepayment, subject to termination charges as specified preceding and/or in the Tariff for the contracted service.

- C** No lapse in billing will occur for moves of service under CSPP.
- D** Orders to disconnect the existing service and reestablish it at the new location must be related.
- E** Any rate elements from the original location that are not reestablished at the new location will be subject to applicable Termination Liability Charges.
- F** Any additions made at the new location will be treated as coterminous additions in accordance with 2.11.4 preceding.
- G** All regulations and charges for changes made to the service coincident to the move shall apply.
- H** All appropriate nonrecurring charges for moves of service as specified in this Tariff will apply.
- I** Moves of service that involve a change of jurisdiction, e.g., intraLATA to intrastate, intrastate to interstate, etc., will not be treated as a disconnect of service with regard to Termination Liability Charge application. - 2.12.3** All bills are presumed accurate, and shall be binding on the customer unless objection is received by the Company within 30 days after such bills are rendered.

2.13 Collection Cost

In the event Company is required to initiate legal proceedings to collect any amounts due to Company for regulated or non-regulated services, equipment or facilities, or to enforce any judgment obtained against a Customer, or for the enforcement of any other provision of this tariff or applicable law, Customer shall, in addition to all amounts due, be liable to Company for all reasonable costs incurred by Company in such proceedings and enforcement actions, including reasonable attorneys' fees, collection agency fees or payments, and court costs. SECTION 3 – DESCRIPTION OF SERVICES

3.2 Computation of Charges

3.2.1 Where applicable, usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.

3.2.2 Where applicable, the airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. The Company uses the rate centers that are produced by Bell Communications Research in the NPA-NXX V&H Coordinates Tape and Bell's NECA Tariff No. 4

3.2.2.A The airline distance between any two (2) rate centers is determined as follows:

3.2.2.B Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced document.

3.2.2.B.1 Compute the difference between the "V" coordinates for the two (2) rate centers; and the difference between the two (2) "H" coordinates ($X1-X2=V$; $Y1-Y2=H$).

3.2.2.B.2 Square each difference obtained in step (B) above ($V^2:H^2$).

3.2.2.B.3 Add the square of the "V" difference and the square of the "H" difference obtained in step C above ($V^2+Y^2=S$).

3.2.2.B.4 Divide the sum of the squares by 10 ($S/10=M$).

3.2.2.B.5 Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

In the event the dispute is not reconciled, either party may make application to the Commission for review and disposition of the matter.

SECTION 8 – DARK FIBER**8.1 Dark Fiber – General**

Dark Fiber facilities shall normally be installed using single mode, fiber optic facilities suitable for provisioning point-to-point communications, transmitting at Customer specified bandwidths. Multimode fiber, at the Customer's request, may be used depending upon facilities availability. These Dark Fiber facilities are available only where sufficient facilities are provided in Company's network, and charges will be provided as referenced in 8.2 of this Tariff and/or on an Individual Case Basis (ICB), as filed with the Commission. Dark Fiber will be offered in increments of two (2) fiber strands per dark fiber network, with the initial minimum number of strands being four (4) dark fiber strands with each fiber strand terminating on a standard optical patch panel. As Company does not provide the electronics, Company cannot test and monitor the facilities. When available, pricing will be on a per strand per mile basis.

When provided, the type of facility and the route of the facility will be determined by Company. Re: Access Fiber Group, Inc.'s, Request to Negotiate

Dear Tony Vande Linde:

On September 29, 2009, AT&T received your letter dated September 28, 2009, via electronic mail, in which Access Fiber Group, Inc. ("AFG") requests commencement of negotiations in compliance with our mutual good faith obligations under the Telecommunications Act of 1996. Your letter states that AFG desires an Interconnection Agreement in the State(s) of Ohio and Wisconsin.

As a result of your request, the signature-ready Agreement will be forwarded to you under separate cover via electronic mail.

Please note that AT&T offers a separate Transit Traffic Service Agreement that is not a part of the Section 251/252 agreement or negotiations process. It is AT&T's position that transit traffic service is not a 251(b) or (c) requirement and that negotiations for transiting rates, terms and conditions between AT&T and AFG should take place independently of 251/252 negotiation and arbitration process.

Enclosed for your consideration are two copies of our Nondisclosure Agreement which covers those items that are not subject to Sections 251, 252, 271, and/or any state law counterpart; or are not subject to any other provision of the Communications Act of 1934, as amended ("Act"). Please sign both documents and return one original to me.

In order to ensure that AT&T prepares the Interconnection Agreement accurately, please provide the following items:

(1) Certification as a CLEC for Ohio and Wisconsin.

(2) Registration with the Secretary of State's office, showing its type of entity and company name. Please ensure that the name on state certification, and the name registered with secretary of state's office are the same. Unfortunately, if they do not match AT&T will not be able to execute the Agreement.

(3) Documentation from Telcordia of your IAC (Interexchange Access Customer) (aka ACNA) Code, which may be faxed to the number listed above. Such Codes are assigned and administered by Telcordia as the maintenance agent for ANSI (American National Standards Institute) Standard T1.251, which is the specification for these codes. The IAC code is used in interfacing between companies and aiding flow through. This three-character alphabetic code is used to populate such COMMON LANGUAGE® Universal Service Order (USO) record fields as "ACNA" and "PIC" and is used to populate the ACNA and CCNA fields on the Access Service Request (ASR) and the Local Service Request (LSR). If you do not yet have an ACNA, you may contact Telcordia at the following address or website.

(4) **Documentation from NECA** showing your company's Operating Company Number(s) (OCN). OCNs are also known as company codes and AECNs (Alternate Exchange Carrier Numbers) and are company identifiers assigned by the National Exchange Carrier Association (NECA). In accordance with the industry standards as defined by NECA, AT&T requires Competitive Local Exchange Carriers (CLECs) wishing to conduct business in any of the AT&T-owned ILEC territories to establish separate Operating Company Numbers (OCNs) for Resale and/or Facility-Based OCNs prior to provisioning services under a Resale or Interconnection Agreement (ICA) entered into with AT&T or any AT&T-Owned ILEC. You may contact NECA at the following address or website to obtain an OCN.

(5) In addition, please complete the enclosed Confidential Credit Application and fax it to (404) 949-1699.

Please note that in responding to your request for negotiations under Sections 251/252 of the Act and providing any proposed contract terms in connection with this response or in our upcoming 251/252 negotiations, AT&T does not waive, but instead expressly reserves, all of its rights, remedies, and arguments. Accordingly, AT&T reserves the right to withdraw, revise or otherwise modify its proposed provisions prior to the provisions being incorporated into an approved and effective interconnection agreement between the Parties.

Alberta Jones will continue to be the AT&T Lead Negotiator for AFG. She can be reached at 214-858-0708. Please address any questions or concerns you may have to Alberta.

AT&T looks forward to working with you to meet your business needs.
