

\*Case No. 09-\* \*1049-EL-REN\*

\*E. Roberts Solar Array\*

\*Staff Interrogatories - Initial Set\*

Question 1: In Section I of the application, you list the in-service date of each unit as 2/24/2009. However the meter photograph dated 10/30/2009 reads 00000. The placed-in-service date is the date that the facility starts generating power. If the facility is not yet generating power please submit the projected in-service date. If the facility is generating power submit the placed-in-service and a current photograph of the meter reflecting that power is being generated.

Answer 1: The facility has been generating prior to 10/30/2009. However, no utility-grade revenue meter was installed on the facility as none is required under Kentucky codes. A meter was added on 10/30/2009 to ensure eligibility for PUCO registration. A photo of the meter, days after the original photo dating 10/30/2009, has been attached to prove placed-in-service eligibility.

1. I am the duly authorized representative of E. Roberts Solar Array.

2. I have personally examined and am familiar with all information contained in the foregoing responses, including any exhibits and attachments, and that based upon my inquiry of those persons immediately responsible for obtaining the information contained in the responses, I believe that the information is true, accurate and complete.

3. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.
