B	The Tariff pages subject to the proposed change(s), reflecting the change, with the change(s) marked in the right margin.
C	A short description of the nature of the change(s), the intent of the change(s), and the customers affected.
D	A copy of the notice provided to customers, along with an affidavit that the notice was provided according to the applicable rule(s).

Section III. - Attestation

Registrant hereby attests to its compliance with pertinent entries and orders issued by the Commission.

AFFIDAVIT

Compliance with Commission Rules and Service Standards

I am an officer/agent of the applicant corporation, Verizon North, Inc. , and am authorized to make this statement on its behalf.

I attest that these tariffs comply with all applicable rules, including the Minimum Telephone Service Standards (MTSS) Pursuant to Chapter 4901:1-5 OAC for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules, including the Minimum Telephone Service Standards, as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

I declare under penalty of perjury that the foregoing is true and correct.

Call Forwarding Busy/No Answer - Variable* - permits the customer to have incoming calls transferred to another telephone number when his number is busy and/or not answered after a specified number of rings. The customer is responsible for the establishment and change of the forwarded telephone number destination. The customer is also responsible for service (Busy, No Answer or Busy/No Answer) activation and deactivation as well as reestablishing the forwarded telephone number upon interruption of the Call Forwarding service. Where a toll message charge is applicable to the call to be forwarded, such charges will be billed to the Call Forwarding customer.

Call Trace Service - allows the customer to immediately and automatically trace the last incoming call received from a caller in an appropriately equipped central office in which Custom Local Area Signalling Service is offered. Upon the customer's request, the trace information will be provided to law enforcement agencies by the Company, but will not be released directly to the customer. After activation, the customer must contact the Company at the number provided in the voice announcement within ten (10) days of the incident. Call Trace Service performs the function of recording call information, but in no way identifies the person(s) actually placing the call(s). By accepting the service, the customer agrees that the Company shall not be liable for damages due to inability to trace the call(s).**

Caller ID - Number Only - provides for the display of the incoming telephone number on a customer provided display device attached to the customer's telephone line or on a telephone or answering machine with a built-in display screen. Caller ID - Number only will forward the calling number from an appropriately equipped central office to the customer provided display device between the first and second ring. The Company will forward all non-blocked telephone numbers subject to technical limitations.

All customer provided equipment used to interface with Caller ID - Number Only must be connected in accordance with provisions of the Federal Communications Commission's Registration Program.

* The grade of transmission on Call Forwarding may vary depending on the distance and routing necessary to complete the call. Therefore, the normal grade end-to-end transmission is not guaranteed.

** For additional liability information see Section 1, Paragraph 2.02.

1.17. CUSTOM CALLING SERVICE - Continued

Call Waiting ID - allows a Caller ID/Call Waiting subscriber who is offhook on an existing call to receive caller identification information on a new incoming call. Once the customer receives the Caller ID data, he or she may decide whether to ignore the waiting call, interrupt the current call and flash to answer the waiting call, or end the current conversation in order to be connected to the new caller. These options are the same as the existing Call Waiting service except that the subscriber has the ability to identify the waiting caller. The customer must be using Call Waiting ID compatible equipment and not have activated Cancel Call Waiting. Customers must subscribe to Call Waiting and Caller ID (or Call Waiting and (T) Caller ID - Number Only) at the tariffed rates for each service or as part of a discounted package. The customer must (T) specifically subscribe to Call Waiting ID service, even though there are no additional rates or charges.

Caller ID - is an arrangement that is provided as an enhancement to Caller ID - Number Only and permits a customer (T) with local exchange service to receive the name, as well as the telephone number, associated with the calling party for calls placed to the customer. The calling telephone number and name will be forwarded from the terminating central office to compatible customer-provided display equipment associated with the customer's local exchange service. If the calling telephone number and name is not available for forwarding to the called party, a message indicating that unavailability will be forwarded. The calling party can prevent the Caller ID customer from seeing the calling telephone (T) name and number display by activating Selective Blocking or Complete Blocking. When the calling party uses this blocking capability, the Caller ID - customer will receive an indication on the Caller ID equipment that the display of the (T) calling telephone name and number has been suppressed.

Anonymous Call Block - provides customers the ability to block calls from persons that have Selective Blocking or Complete Blocking (privacy) activated. The calling party will hear a recorded announcement asking that they hang up and call back without privacy activated. This service is provided at no charge to all customers subscribing to Caller ID - Number Only and Caller ID. Customers not subscribing to Caller ID - Number Only or Caller ID may order this service (T) at the specified monthly charge. Calls routed to an Anonymous Call Block recorded announcement in a VERIZON (T) exchange will not be rated as completed calls or be charged as measured or toll calls. A caller may choose to place his call through an operator. Operator surcharges will apply for the completed call. Operator surcharges will be waived for calls within VERIZON 's network for victims of domestic violence, domestic violence agencies and programs, and (T) emergency personnel while performing their jobs.

RATIONALE FOR CHANGE

Verizon North Inc. proposes to revise its General Exchange Tariff, P.U.C.O. No. 7, to make textual clarifications to the technical limitations and conditions of Caller ID service to be effective March 27, 2010. Prior customer notice not required since this is not a change to the existing service nor a rate increase.
