Docketing Case No.: 10-0176-EL-ATA

Notes: As an all electric customer I believe this price hike is absurd and excessive. Last year my bill never exceeded \$200. Already this winter my bill has approached \$400 twice. In August '09 I thought \$84 wow this is what my Dec '08 bill looked like. But my thoughts were everybody has to pay their fair share. At this point however, you might as well give the utility company a ski mask and a gun, have them yell take off your jewelry empty your pockets and lay on the floor face down. In this time of corporate greed the current situation epitomizes everything that is wrong with corporate America! The "have's" continually take everything from the "have nots". In addition, when I tried to call your offices after listening to the greeting and being placed in the loop. Your phone system disconnected each of the 3 times I called.
