Docketing Case No.: 10-0176-EL-ATA

Notes: I have an all electric house. Natural gas is not available in my area. My bills have skyrocketed. If I knew this was going to happen I wouldn't have bought this house. I'm almost ready to retire which will make things even worse. Have them put my rates back where they were. Phasing in the rates slowly is just a trick. Killing us slowly financially is not a solution. You still end up dead. Do they think we are so stupid they can do it slowly and we won't notice? This isn't even factoring cap and trade which will come soon from our friends at the EPA. HELP!
