Docketing Case No.: 10-0176-EL-ATA

Notes: I am sure this is just another of the hundreds you have received in regards to the electric bills for those of us with all Electric homes. The fact that you allowed the electric company to do away with the discounts for all electric homes is creating a financial disaster for many of us. When electric bills exceed mtg payments something is wrong. Even the grandfathered period was eliminated. Would you like to try and sell an all electric home today? No one could afford to buy it. The cost to change it over is out of the question for most of us. We purchased energy misers to help reduce our bills so we could even afford them and now that is no good. We have done everything we can to reduce our usage but even though that was successful our bills are over \$100 a month more than they were. Use less cost a measureable amount more. What is wrong with this picture. Shouldn't you be working for the citizens and not the greedy utility companies. This country is going down hill and the word is greed.

Please docket the attached in the case number above.
