Notes:

Please docket the following in the case number above.

COMMENT DESCRIPTION:

Marty Grundy
2602 Exeter Rd
Cleveland Heights, OH 44118

"You were right the first time: it is not and has not been fair for all the rest of us to subsidize electricity for 100,000 all-electric homes. If both the builder/developers and the electric company executives promised this, then let the subsidy be taken out of the salaries and bonuses and profits of the top officials of the electric companies and the builder/developers. Small businesses and residences should not have to keep carrying subsidies for these all-electric homes. In fact, WE should be getting a rebate, not a continuing surcharge to subsidize all-electric houses. "
