Docketing Case No.: 10-0176-EL-ATA

Notes: I just want to add my complaint to the current problem all of us all electric home owners have with these unbelievable rates. I feel the First Energy lied to you about the use of electricity in a all electric home. They know full well what each and every one of ther 100,000 customers are using. They should be fined a very large fine because of this mis-information they gave out. I also can't believe you dis not investigate the all electric rate removal without investigating what it would do to the residents of Ohio. Are you not our voice in the utilities matters and use for Ohio residents? Why did it take the Governor to have you investigated in stead of your doing your own policing of your actions. Does your organization need the FBI to come in and see if your organization is corrupt also? As a long time resident of northern Ohio I have lost all respect for your organization. I hope that in the next few weeks you can gain the trust and respect from the resident of Ohio once again. You need to fix your blunder and bad decisions.

Please docket the attached in the case number above.
