Docketing Case No.: 10-0176-EL-ATA

Notes: My electric bill has increased significantly. This is awful. My house is all electric. I try to be conscientious with my electric usage. However, this increase is ridiculous. Wouldn't it have been better for consumers if the credit was phased out over a period of time instead of all at once. During these times and since it is winter, it seems unconscionable to have implemented the pricing increase in this fashion. I hope that the current economic climate and the outrage by consumers who need electric will be considered as the decision to implement this rate increase is reconsidered.
Thanks for your time and consideration.
