Docketing Case No.: 10-0176-EL-ATA

Notes: Just read in The Plain Dealer that a proposed 20% discount has been given for those households grandfathered back in 2007. How is this going to impact the rest of the Cleveland Illuminating Co. customers who have essentially been subsidizing all electric households' winter electricity use? If we are going to receive less of a discount than the all electric households, I guarantee Gov. Strickland and Sen. Grendell will NOT receive a vote to return to office when the time comes. I agree with PUCO that continued unreasonable discounts to all electric households in times that demand conservation defeat the very goal of conservation.
