Docketing Case No.: 10-0176-EL-ATA

Notes: I have been reading all about the all electric discount. My complaint is opposite of most. If the News Heralds article was right why as a First Energy customer do I have to help subsidize all electric discounts. I heat with natural gas. We have programs for lower income people which we help and that is fine but why should I help subsidize all electric homes regardless of the residents income. Their discount should not come in below the utilities cost.

Please docket the attached in the case number above.
