Docketing Case No.: 10-0176-EL-ATA

Notes: My last two electric bills have been almost triple for the same time last year. This seems to be outrages. How could you agree to this. I called my electric supplier and they said you gave them permission to go ahead with this price gouging plan. Our electric co. does not seem to be willing to offset costs with wind generation or any other new technology. I fear we will be going backwards to the days of inefficiency and passing the cost of poor management on to consumers. I urge you to immediately reverse this decision.
