RECEIVED-DOCKETING DIV

Docketing Case No.: 10-0176-EL-ATA

Notes: I live on a road that does not have a water, sewer or gas main. I am required to have a constantly running aerator, an electric submersible pump for my well water and I use a heat pump for home heating. I do not have a choice but to be an all electric house. I supplement home heating with a wood burning stove and have all "energy star" appliances as well. All of my bulbs are H.E.. While I am glad to see concerns of all electric home owners addressed it is not enough, it has to be done quickly and to completion as soon as possible. Full reinstatement of the discount immediately. The manner it was taken away deserves a closer look as well.

Please docket the attached in the case number above.
